At Resetea, we create sustainable, responsible, and innovative products with which to enjoy nature at home.

Home growing kit

With coffee as a substrate, we have created a kit through which you can grow your own mushrooms without leaving home. It's easy, fun and sustainable.

The kit contains a sealed bag of oyster mushroom mycelium incubated on coffee grounds. Its use is very simple, you just have to tear off the window, make a cut in the bag, submerge it in water for 24 to 36 hours, put it back in the box and moisten the substrate daily. In a few days your first mushrooms will begin to sprout.

Once the cultivation is finished, the mushrooms convert the substrate into an excellent natural fertilizer that you can use in your pots or your garden.

Size: 17 x 14 x 34 cm.

Weight: 2 Kg.

RRP: 25,90€

Culinary kits

With the culinary kits, you can simply and conveniently grow the ingredients of your favourite dishes.

Contents:

3 Seed balls covered in tissue paper. 3 Biodegradable pots.
3 Substrate discs. 3 Growing sheets.

The seed balls are made using the Nendo Dango method developed by Masanobu Fukuoka over 70 years ago. This system protects the seeds for long periods of time. Thanks to the clay and natural fertilisers that cover them, this guarantees a successful germination.

The wooden boxes are manufactured at a special employment centre, which provides support, training, and real opportunities to people at risk of social exclusion.

Varieties: **Gourmet** (parsley, basil and coriander), **Pizza** (oregano, basil and cherry tomato), **Mojito** (peppermint, basil and spearmint), **Spicy** (chili pepper, habanero and jalapeño), **Salads** (rocket, cherry tomato and lamb's lettuce), **Desserts** (strawberry, blackberry and mint), **Provencal** (rosemary, oregano and thyme), **Super foods** (chia, kale and quinoa), **Gin & tonic** (rosemary, strawberry and cucumber), **Edible flowers** (marigold, pansy and nasturtium) and **Hamburger** (lettuce, tomato and mustard).
